The Diamond Star Ranch Youth Initiative is a community wide effort to implement a new resource for at risk teen daughters and their families. This vision includes a real working horse ranch where at risk teen daughters can find a safe haven from a broken family, drug abuse, or other at risk behaviors. Each girl will be given a horse to care for along with chores around the ranch. A place where a teen daughter can find rehabilitation, develop personal responsibility and find their own unique God given talents.
